

Project Demo Planning

Date	04 July 2026
Team ID	
Project Name	A Comprehensive Measure of Well- Being
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S. No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Introduce the project, objectives, and problem statement.	2	Varshini
2	Dataset & Model Overview	Explain the dataset, preprocessing steps, and machine learning model used	3	Varshini
3	Live Application	Demonstrate the streamlit application by entering inputs and predicting HDI.	5	Varshini
4	Results & Visualizations	Show prediction results, graphs, and model performance metrics.	3	Varshini
5	Conclusions & Future Scope	Summarize the project, discuss future enhancements, and answer questions.	2	Varshini

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain why HDI prediction is important and define the project objective.
2	Solution Overview	Describe the dataset, preprocessing, machine learning model, and streamlit interface.
3	Live Feature Demonstration	Upload or enter sample data, predict HDI, and display visualizations.
4	Q&A Session	Answer questions about the project, model, technologies, and future improvements.
